PROF. SAMUELS ORIGINATES PECULIAR METHOD OF TREATMENT

HIS PHENOMENAL SUCCESS CAUSES ENMITY OF DOCTORS

ARRESTED MANY TIMES

But Acquitted By Juries and Judges and Permitted to Continue in a Work that He Alone Can Do, as He Is the Only Man in the World Using His System Patients Make Startling Statements of His Successful Method of Treating Consumption, Bright's Disease, Kidney Trouble, Blindness, Fits, Catarrh, Heart Disease, Cataracts, Nervous Prostration, Dropsy, Hay Fever and Many Other Diseases that Baffle the Skill of the Ordinary Physician.

ta, Kas., have been of such a startling character that they have aroused widespread wonder, admiration and curios-ity. Time and again he has taken by the medical profession and restored the patients to health in a most phenomenal manner.

There is considerable mystery attached to Professor Samuel method of accomplishing these marvels, and it is known that he does not use the drastic drugs and medicines that doctors depend upon. And it is a matter of proof that with the system this discovery gives him, he has made the bodies on the very verge of the grave. and restored to health men and womon given up to die by doctors and

Professor Samuels came into note several years ago by his almost miracous cure of "Blind Joe," of Topeka, Kas, who was well known in that city. having sold peanuts and popcorn on the streets there for years. He had been blind for ten years and had exhausted all the means in his power to be cured, but had given up in despair until he fell into the hands of Professor Samuels, who effected a cure.

Professor Samuels has been arrested many times for practicing his system without having a diploma. On being interviewed a few days ago relative to his many arrests, Professor

Samuels said:

"Yes, I have been arrested many times for practicing without a license, but in no case have I been convicted. Naturally, the medical profession are lealous of my success, and are fighting me most of the time, but how are they going to convict me? Do you suppose any jury, when my patients come into court, as they did at Alva, Okla., Newkirk, Okla., Ponce City, Okla., and other towns, and tell how they have been cured of all manner of trouble, do you suppose for a minute that any jury hearing these people and seeing with their own eyes what has been accomplished, is going to convict me? My trial at Alva was before a very able judge, Jesse J. Dunn, who is now chief justice of the state of Oklahoma; after hearing the evi-dence for and against me I was ac-At Newkirk I was tried before Judge Hausley, a very able judge. Judge Brown, a noted lawyer, was the prosecuting attorney, and fought the case very hard, but I was acquitted. These persecutions were brought because I have no license. Being the originator and only practitioner of my along in the same harness for half a century, too blind to accept my discovery, which accomplishes actual resuits, make it impossible for me to procure a license as a representative of any of the recognized schools. So what am I to do but to proceed in my own way and accomplish results that astound humanity?"

The professor here showed a reorint from the court records showing the proof of his assertions that the court had not convicted him.

Professor Samuels is a remarkable Bright, alert, progressive and although 60, he is straight and active and gives one the impression that he is much younger. He talks with such an earnest conviction and enthusiasm of his work that the listener must believe him and believe in his work. What is the nature of your treat-

ment?" was the next question. "That is a secret that has taken many years of my life to accomplish. I can only say that my results are obtained treating diseases by dropping coloriess liquid, which I prepare, into the eye. Strange as it may seem, so-called incurable cases of consumption, Bright's disease, dropsy, epileptic fits, nervous prostration are treated in this apparently miraculous way. My system is based absolutely on scientific principles. The eye is the window of the soul. evolved a system of treating other bodily ills based on the relation of the eye to the system as a whole. This may seem strange, but here are the proofs.

Thereupon the professor placed before his interviewer his "Message of Facts," affidavits and letters in great numbers, many of them from responsible and well-known people, all bearing on his statements.

This proved toat Mr. Frank Hoff. now in business at 249 North Main street, Wichita, Kas., had been given up to die of consumption. He had been treated by the greatest specialists in Brooklyn, N. Y. It was some seven years ago and when he had tried everything else without avail, that he came to Professor Samuels and was cured. He is a large, strong man and weighs 240 pounds now, and when called upon by the interviewer, stated that he owed his life to Professor

Mrs. Minnie B. Tarver, living at Hesterville, Miss., had what was pronounced to be a very bad case of tuberculosis. A large number of her family had died from the same disease, among them her mother, two sisters, one brother and one brother-She had practically given up hopes when hearing of Professor Samuels and began taking his treatment. She was having fever, a cough and night sweats, and now and then a hemorrhage. She weighed only After beginning treatment, she noticed an improvement the very She gained in weight unfirst day. til she weighed 150 pounds, her usual

WICHITA, Kas.—The almost mi-raculous cure of hopeless invalids miles northeast of Wichita, was al-most blind and deaf, was led by his daughter to the office of Professor Samuels, and was suffering a great deal of pain from his eyes. Professor Samuels restored his eyesight after three weeks treatment. He goes everywhere unattended and transacts his business and writes almost as well as he ever did in his life. After being entirely deaf in one ear for twenty years, he can hear the tick of a watch.

Miss Ida Garrison, who resides at 963 Roberts avenue, Wichita, Kas., was said to be very low with consumption by leading physicians. She tried all sorts of climate and very best doctors on lung trouble and was problind see and the lame walk. He has nounced incurable by all. Miss Gar-revived the flickering spark of life in rison took my treatment about seven years ago and she treated about nine months and is still in good health,

Mrs. Josie Townsend of Geary, Okla., writes: "I feel that I owe you my life, for when I commenced treatment with you a few months ago I had been given up to die-I had been sick for twenty-four years and had been treated by some of the best doctors in Kansas and Oklahoma, but they could do me no good. When you commenced to treat me I had one large sore on my leg which was sore to the bone, and several small sores around it, and just the least bit of work would burst a vein and I would almost bleed to death. I was all bloated up with dropsy and could not sleep; would almost smother at times. Everyone claimed I could not live and I thought so myself, as I could hardly walk around the house. My feet and hands were almost paralyzed and are now so that I can use them again, and God knows I thank you more than I can Professor you are a wonder. All the people here who know me, just look at me and say: 'Is it possible that this can be you and all the medicine you used was the drops in your

Mr. P. R. Robey, who resides at 309 North Walnut street, Wichita, Kas., brought his mother, Mrs. P. Spidal, to Wichita to be treated by Professor Samuels. She was unable to move hand or foot; she was even unable to speak. Her case was paralysis. Physiclans had given her up and considered her case hopeless. She was taken in an ambulance to the home of her daughter. After using Professor Samuels' treatment a few months she was restored to health.

Mr. Harry Evans, a wholesale lumberman, located at 307 Winne building, Wichita, Kas., had what the best physicians called Bright's disease, The doctors could not give him any hope and he continued to get worse, system of healing, how am I to have He was also losing his eyesight from a diploma? I can't issue it to myself, what was said to be paralysis of the outle nerve. He took treatment from Professor Samuels and began to improve from the very start. sight came back, and all symptoms of Bright's disease left. After taking Professor Samuels' treatment he was examined by leading physicians, and they stated he had not the slightest trace of Bright's disease.

Mr. Evans is known all over the country, a leading business man whose word can be relied upon and he would be glad to write or tell anyone of his experience with Professor Samuels.

The young son of W. W. Lyon, located at Augusta, Kas., had been suffering for a long time with a severe case of asthma. He was treated by Prof. Samuels, and is now in good health. In a recent letter, Mr. Lyon "It was the best investment writes: ever made."

Mary A. Stout, who lives at Burlington, Kas., had what was pronounced to be a bad case of disbetes. This disease is pronounced incurable by reguiar practitioners. This case was treated by Professor Samuels. In a recent letter to Professor Samuels, she "I feel well, and have no marks of diabetes. May God's richest blessing ever be with you."

"Is it necessary for your patients to come to see you to be treated?" was asked. "No, my treatment can be sent by mail. Many of my patients come to see me, but it is not always necessary. My treatment is sent to hundreds, and, in fact, I am as successful in treating that way as though the patients were right here. To people from distance who write me, an information blank is sent to fill out. In this way I am enabled to send them the treatment with full directions for its

"I should think with your ability to cure you would be in a position to demand big money from your patients," remarked the interviewer. "No, I do not do that now. My charges, when the patients used to call on me in person, used to be pretty high. I am ting old, and I feel that it is my duty in my last years to place my treatment in the hands of the poor as well as the rich. I believe that I owe a duty to mankind, and that as many people as possible, no matter what race or nationality, nor where located, should be benefited by my life's work. On this account, I have reduced my charges so they are within reach of

"My greatest aim in life from now on will be to relieve the tils of humanity, and when death shall claim me, I have arranged so that my secret will not die with me, but will be known, so that men in all ages to come will reap the reward of my life's

Everyone who is sick, no matter what their troubles may be, should write Professor Samuels, room 160, Samuels Bidg., Wichita, Kas., for his "Message of Facts," and they will find something in it of interest to them.

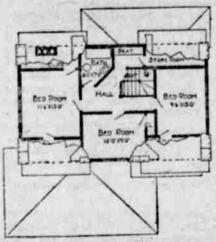

turer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 194 Fifth Ave., Chicago, Ill., and only enclose two-cent stamp for reply.

There is a feeling abroad that noth ing is too good for the home. Even when a building project is undertaken with the idea of economizing at every point, the cost is always increased far above what was originally planned. This is not because of faulty estimates or trickery on the part of the building contractor, but because as the work progresses the owners think of many improvements and new features that they would like to add to make the home more complete or more impo-

This tendency on the part of home builders is perfectly right. It is rarely that a family builds more than one home. With a well-constructed residence, lasting 40, 50 or 60 years, doing duty as the home not only of the parents and their children but also often handed down as a legacy to the grandchildren, a thousand dollars or so added to the original investment seems of little importance, and very often it is that last thousand dollars which makes the difference between a cheap, "pinched" house of few conveniences and scarcely large enough for the needs of the family, and the home that is large enough, equipped with all conveniences to make it permanently satisfying and of such an appearance that it will always be a credit to the neighborhood.

This trait of human nature which forces us to want and finally get the best when it comes to home building in spite of our previous resolutions for economy should be borne in mind before the original plans are drawn. In other words, make the appropria-

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building for the readers of this paper. On account of his wide experience as Editor, Author and Manufacture of the control of t the country. It is safe to say that in the suburbs of Chicago during the past four years fully 90 per cent. of all the new houses have made use of this material, either for the entire

Why Jones Was Sad. Jones' rich grandmother died and Jones seemed unnaturally depressed and sad. His friends tried to cheer

him. "She left a last will and testament, suppose," said Jenkins, carelessly. "Oh, yes," said Jones, raising his head at last, "she left a will and testament.

"Ah," chimed in Brown, "you were always a friend of hers! Of course your name was mentioned."

"Yes," answered Jones, bursting. into floods of tears, "my name was mentioned, boys. I-I am to bave-" They hung expectant, while more sobs choked back his words.

"I," he declared at last, "am to have the Testament!"-Scraps.

The Rude Visitor. There is a story about the secretary of a golf club who was a man of di minutive stature. It was summer time. and the grass had been allowed to grow rather long. The secretary was playing in front of a visitor who was a very long driver, and kept dropping his ball in the neighborhood of the secretary all the way round. At last the little man could stand it no longer and walked back and remonstrated with the visitor on his conduct, but the only reply he got was, "If you would cut the grass, one might be able to see you."

A Practical Discourse. One stormy day the children were amusing themselves indoors, playing church. "Now, Florence," said Theodore, "I'll be the minister and tell you what you must do, and you'll be the people, and you must listen and do what I tell you." Climbing up on a chair, he began his sermon. "Florence, you must be a very good girl and do whatever your brother wants you to. If he wants your playthings, you must let him have them, and if you want any of his, you just let 'em alone."-Christian Herald.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and countiling derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Half's Catarrb Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken listernally, acting directly upon the blood and mucous surfaces of the system. In buying Half's Creatrr Cure be sure you get the genuine. It is taken listernally and made in Toledo Onto, by F. J. Cheney & Co., Testimorials free.
